Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Regarding claims 5, 7-9 and 14, the phrase "for example" render the claims indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-3, 6, 10 are rejected under 35 U.S.C. 102(a) as being anticipated by Sato et al., (JP 2002-71261 A). Sato et al., disclose a refrigerator 1 comprising an ion generating means 19 and 21 having an air passage 21a leading to an air outlet 23b, wherein positive ions ion s generated by (+) electrode and negative ions generated by (-) electrode 21 released into a living space outside the refrigerator 1; a blower 15. Regarding claim 10 the structure ion generator air cleaner is so that it inherently prevents water damage.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 4, 15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sato et al. The ion generating means having opening pointing downward for claim 4, ion generating means locating in a ceiling portion of the body of the refrigerator for claim 15, and ion generating means forming in front of the refrigerator for claim 17 are design of the an individual skilled in the art since there is no criticality for pointing ion generator downward, locating ion generator at ceiling or in a front face of a refrigerator..

Allowable Subject Matter

Claims 11-13, 16 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
